DETAILED ACTION

1. This office action is a response to the restriction requirement filed on 3/31/2003.

Election/Restrictions

2. Applicant's election without traverse of Group I, claims 23-42, in Paper No. 6 is acknowledged.
3. Claims 43-48 and 50 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 6.

Claim Objections

4. Claim 30 is objected to because of the following informalities:

There are underlines in lines 18 and 19.

Before the "the forming" in line 27, Insert --wherein--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 23-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re. Claim 23: The limitation "at first and second lead layer sites" in lines 10 and 11 renders vague and indefinite. It is unclear as to where the first and second lead layer sites are located.

The limitation "a spin valve sensor" in line 12 renders vague and indefinite. It is unclear whether this spin valve sensor is the same sensor in line 8 or a new sensor.

Re. Claim 26: The limitation "in a field that is directed transverse to the ABS" in line 20 renders the claim vague and indefinite. It is unclear as to what the "a field" is indicated.

Re. Claim 29: The limitation "in a field that is directed parallel to the ABS" in line 20 renders the claim vague and indefinite. It is unclear as to what the "a field" is indicated.

Re. Claim 30: The limitation "the first and second shield layers" in lines 20 and 21 lacks antecedent basis.

The limitation "forming an antiferromagnetic oxide film between the insulation film and the first lead layer in the first end region" in lines 22-23 renders the claim vague and indefinite. It is unclear as to where the insulation film is located.

Allowable Subject Matter

7. Claims 23-42 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Art. Unit: 3729
